

Responsive Labs

Learning Objectives

- **Analyze** a web page in order to redesign it responsively
- **Practice** reusing previous code
- **Practice** using media queries for responsive design

Agenda

- Review
- Responsive Design Codealong
- Responsive Design Lab

Review

Responsive

- What are some common approaches?
- What is a breakpoint?
- What is a media query?
- What is a viewport?
 - What does that meta tag related to the viewport do?
- Anything else?

Media Queries

What are they?

A syntax for attaching some styles based on some conditions

They often use ***breakpoints***

```
@media ( condition ) { ... }
```

Examples

```
@media (max-width: 768px) {  
    ...  
}
```

```
@media (min-width: 769px) and (max-width: 960px) {  
    ...  
}
```

```
@media (min-width: 961px) and (max-width: 1140px) {  
    ...  
}
```

Codealong

A Fancy App

Exercise

- Make your solution of Startup Matchmaker responsive
