It's all over

GENERAL ASSEMBLY

Getting betterer

Right now

We don't care about final projects

The real project is inside you

And it will never be finished

Kind of lame, kind of true

You now know enough!

It's been 10 weeks, and you know a lot more than you would expect or realise

But you have so much more to learn

We all do

That is a great thing

So, what now?

What now?

You never have to see me again!

- Don't stop coding: practice
- Learning new languages and frameworks makes you better at other ones
- Participate: meetups, conferences, events, Twitter, GA
- Stay in touch with each other
- Enjoy: it's going to be easier that way
- ***Get great: blow my mind!***
